LABORATORY[®]

LANGUAGE ARTS & WRITING GR K-12

Our Opus enrichment english program explores the foundations of the English language through vocabulary, speaking, writing and reading. L.A.W. is supplemented with computer-based enhancement activities which include:

Achieve3000 Literacy GR 3-12

Supported by over 10 years of efficacy studies, this adaptive digital solution is proven to double and even triple expected learning gains for students. Differentiated content, vocabulary, and learning scaffolds ensure equitable access, driving Lexile[®] growth and positive outcomes for all learners.

Actively Learn GR 3-12

Actively Learn is a digital curriculum platform for grades 3–12 that's designed to drive deeper learning by combining standards-aligned content, powerful customization, and collaboration tools.

SRA Reading Lab K-8

An adaptive, supplemental program designed to modernize reading practice. A dynamic library of texts is accompanied by comprehension, vocabulary and grammar activities.

ALEKS MATHEMATICS GR 3-12

Our Opus enrichment math program that is supplemented with computer-based enhancement activities which include:

Assessment Learning in Knowledge Spaces (ALEKS)

ALEKS is a 25-year research-based, online learning program math program that uses artificial intelligence and open-response questioning to identify precisely what each student knows and providing individual support.

Other courses include:

- ALEKS AP Statistics
- ALEKS AP Chemistry
- Mastery of SAT Math
- Mastery of ACT Math
